SUMMARY

Dynamic and seasoned software engineer with over ten years of comprehensive experience in web development, with a profound interest and active involvement in ecommerce, fintech, and cutting-edge technologies. Exceptionally skilled in PHP, especially with Laravel and Magento (Adobe commerce), leading the development and scaling of e-commerce and enterprise software from conceptualization to launch. Demonstrated success in managing full-stack development projects, optimizing system performance, and mentoring teams to achieve company objectives. Eager to leverage extensive technical skills to drive innovation and excellence in software solutions.
